many of the world's economic ills short termism compulsory growth pressure cyclical recessions unrelenting concentration of wealth and erosion of social capital can be traced to our competitive money system in which there is built in economic scarcity and never enough money for people to pay off their debts we need an economic system that is both cooperative and competitive with each balancing and complimenting the other lietaer and dunne tell how such a balanced system can be created and in fact how it is already being built in many places around the world individual citizens entrepreneurs businesses communities and governments are creating new cooperative money systems that link unused resources with unmet needs over the past 30 years there has been a tremendous growth of cooperative currencies from fewer than 100 in 1980 to over 4 000 today but we need many more of them spread more consistently all over the globe we also need more large scale cooperative currencies the emergent cooperative currency movement needs to grow up dodging the dogma of both left or right rethinking money provides the roadmap for this to happen

a criminological investigation into the social cultural political economic conditions that led to the 2008 financial collapse

we are trading away our future and most economists have been caught with their heads in the sand they think that the trade deficits are the result of free market forces but the trade deficits are caused by foreign government currency manipulations and the foolish subsidies that the us tax system gives to foreign savings the american people know that something is wrong they know that the chinese and japanese governments manipulate their currencies to steal american industries they are intrigued by governor huckabee's endorsement of the fair tax a proposal that would abolish the irs renew american investment strengthen the dollar and help solve the trade deficits if nothing is done then resolutely nondemocratic china will replace the united states as the world's premier power in this book the richmans explain solutions that are within our grasp it is not yet too late

the regulation of sovereign financing is a highly topical and significant issue in the light of continuing global financial turmoil this book assesses the role of international law in sovereign financing addressing this issue from both legal and economic standpoints it takes as a starting point the recent report principles on responsible sovereign lending and borrowing by the united nations conference on trade and development unctad this report was endorsed by the united nations general assembly in its december 2011 resolution on debt which emphasized the need for creditors and debtors to share responsibility for preventing unsustainable debt situations and encouraged all stakeholders to pursue the ongoing discussions within the framework of the unctad initiative investigating the legal and economic basis for the principles which were

articulated in the report the book develops a detailed and nuanced analysis of the controversial and complex issues they raise including those concerning finance and credit rating agencies contingent liabilities debt management corruption fiduciary relations and duties collective action clauses and the role of the eu and un ultimately it argues that the principles elaborated in the report correspond with general principles of international law which provide a strong pre existing foundation upon which to build responsible principles for sovereign financing
