ulwencreutz s royal families in europe v a brief history of the ruling houses during the last 2000 years from the house of la tour d auvergne to the house of zähringen

this opening volume of a three part history of the family in europe examines the material conditions of family life housing diet and domestic organisation and the economic and social factors that influenced its development

wellbeing of families in future europe challenges for research and policy familyplatform families in europe vol 1

ulwencreutz s the royal families in europe the reigning and formerly reigning sovereign royal houses of europe and south america even includes some almost unknown royal houses

the family is currently a controversial topic both within the uk and europe while demographic trends seem to suggest that family structures and attitudes within the european union are converging and that member states are facing similar social problems their policy responses are very different this book examines the differences between these national responses and that of the eu as contained in the social chapter it analyses the key concepts underlying the formulation of family policy and illustrates it with the latest data much of it hitherto unpublished

the family forms of historic europe have been fascinating in their variety their importance for the historical development of our continent would be difficult to exaggerate for our relationship with the peoples of the other continents of the world as well this book is an attempt to recover the different familial systems and compare them with one another the studies range from russia poland hungary and austria to scandinavia flanders and britain all the influences which have affected the character and composition of european households are taken into account the analysis covers their function as productive work groups in the procreation and bringing up of children and in the support of the elderly and their relationship with the wider society and its norms along with its political organization central and local claims that inheritance customs and inheritance practice and the

occupation of the household head exerted a powerful influence on the size and composition of households are subjected to rigorous and systematic investigation

this open access book focuses on family diversity from a legal demographical and sociological perspective it investigates what is at stake in the life of homosexuals in the field of family formation parenting and parenthood what it brings to everyday life the support of the law and what its absence implies the book shows the paths leading to the adoption of laws while demographic analyses concentrate on the link between registration of same sex marriages and same sex parenting with a detailed focus on spain the sociological chapters in this book based upon qualitative surveys in france iceland and italy underline how the importance of the legal structure influenced the daily life of homosexual families as such this book is an interesting read to lawyers demographers sociologists behavioural scientists and all those working in the field

the history of family and households has been the subject of intensive research for over a generation in the 1970s peter laslett and others set the agenda with a strong emphasis on geographical differences between northern and southern eastern and western europe others have challenged this view pioneering different approaches this volume takes stock of the field focussing particularly on family history in south east europe in comparison with the rest of europe the authors consider what european families have in common their regional and local differences and changes over time using the rich and fascinating variety of sources and methods used by family historians today contributors include guido alfani judit ambrus mirjana v bobić siegfried gruber peter guzowski violetta hionidou daniela lombardi beatrice moring silvia sovič pat thane alice velková marta verginella and pier paolo viazzo

an original theory asserts that this distinctive form of kinship system developed in the northern mediterranean around the fourth century a d and that its subsequent growth can be attributed to the efforts of the early christian church to acquire property formerly held by domestic groups

this book examines common familial trends and differences throughout europe from the 1960s onwards and discusses the most common theoretical explanations for convergence and divergence eriikka oinonen reveals how structural factors such as the labour market the welfare state and the eu affect europeans family related choices
